S Series Shower Bases

Builder Preferred Shower Bases

The S Series Shower Pans are specifically designed for multi-family projects and production driven home builders. These best-in-class series of shower pans are the core of the Florestone product line; manufactured with volume driven projects in mind.

With decades of dependable, durable production, the S Series Shower Pans are easy to install and come in a wide variety of sizes. Crafted for excellence and built to last, choose a Florestone S Series Shower Pan today.

Why Choose the S Series Shower Bases?

Manufactured using heat and pressure, the compression molded products offer strength durability, and consistency.

Readily Available- Local Inventory to support your project needs

Wedge Lock Seal - Creates a secure and worry-free drain installation

Dependable - Consistent in finish, manufactured with precision, for professionals who prioritize quality and durability

Ease of Installation- Inherent design elements that aid in installation and improved performance

THE EDGE

A Florestone Innovation

Featured on Florestone's F Series and S Series shower bases, The Edge is a patented threshold design that addresses the critical issue of water containment by keeping water inside the shower. This minimally visible but effective barrier functions as a "fourth flange," directing water away from the shower exterior and towards the drain.

S Series Shower Bases

The S Series Pan is a plumber's best friend when it comes to multi-family projects. Built tough with durable materials, it's designed to handle heavy use — making it worry-free for tenants and maintenance teams alike. Lightweight and easy to install, the pan saves time on the job, especially when you're tackling multiple units.

With its slip-resistant surface and a range of sizes to fit any layout, the S Series makes your job smoother while delivering a solid, reliable shower base that builders and tenants will appreciate. It's the no-hassle choice for getting the job done right the first time.

M Series Utility Solutions

Florestone's utility series is a robust offering of tough-as-nails products designed to meet the unique needs of the utility space. With laundry sinks, mop sinks, drop-in sinks, and more, this series is made to handle the rigors of utility spaces - from residential laundry room to commercial kitchens.
